

Univar Solutions Recognized for Carbon Footprint Reduction Targets

The Company was named to USA Today's List of America's Climate Leaders for 2023.

DOWNERS GROVE, Ill. , July 10, 2023 /PRNewswire/ -- Univar Solutions Inc. (NYSE: UNVR) ("Univar Solutions" or "the Company"), a leading global solutions provider to users of specialty ingredients and chemicals, announced its recent recognition on the USA TODAY list of America's Climate Leaders. Developed for USA TODAY by market research firm Statista, this inaugural list offers a data-driven recognition of companies that have cut their carbon footprint in recent years, a noteworthy achievement for investors, customers, and anyone who is seeking transparency around these still-evolving measures.

Univar Solutions Recognized for Carbon Footprint Reduction Targets	The USA Today list was developed to help cut through the confusion of which companies have reduced their greenhouse gas emissions. Rankings began with a list of more than 2,000 United States based companies with revenue of more than \$50 million in 2021. From this initial list, 700 companies were carved out based on the public reporting of emissions data, making a verifiable ranking possible.

"Receiving such recognition is a testament to our people as we relentlessly pursue our 2025 Environmental, Social and Governance (ESG) goals, including further key emissions goals stretching to 2030 in support of a long-term commitment to achieve net-zero emissions by 2050," said David Jukes president and chief executive officer at Univar Solutions. "As a business built on our purpose, we are focused on making a positive difference to the world around us by helping to keep people safe, protecting the physical environment, strengthening social responsibility in the supply chain, and creating a business where our people can bring their whole, authentic selves to work."

"I am proud to see how our people have continued to demonstrate excellence in all we do and to see this recognized externally," said Jen McIntyre, chief people & culture officer and executive ESG lead at Univar Solutions. "We have continued to drive progress against our Global ESG goals, helping deliver environmental and social value through our business and value chain."

"I'm pleased to see our encouraging progress to date on climate action be recognised in this inaugural listing. Ambitious goals are important in this space but I'm more proud on the actual emissions reductions our teams are driving across the business," said Liam McCarroll, global sustainability director for Univar Solutions.
